# Home inspirations

Local interior designer, Alida Lambooy, knows how to make any dreary home ooze glitz and glamour, and this is evident with her latest creation in Woodhill.

**T**his Woodhill home, decorated by Alida Lambooy demonstrates how, with just the right decor, you can make even the smallest room look larger and inviting. "With this home we wanted to make

everyone feel welcome by making it both classy and homey." Although the house is fairly small the living space feels large as a result of using personally designed furniture, carefully harmonised with colour.

By using personally designed furniture, carefully harmonised with colour, the living space feels much larger
